Formal Objection Made to the Jurisdiction of the Caurt Dr. Crapsey's Assistant in the Rochester Church the First Witness Ca lled for the Prosecution.

BATAVIA, N. Y., April 23.-About everything in the Protestant Episcopal Church except the Scriptures was offered in evidence to-day at the opening of the trial of the Rev. Algernon S. Crapsey on charges of heresy. The defeator probably will take dire of that omission, as it is understood that Dr. Crapsey bases whatever hope he has of acquittal before the present ecclesiastical court upon a showing that his alleged heretical preachings and writings conform

to the Scriptures, Dr. Crapsey's legal counsel, James Breck Perkins of Rochester and Edward M. Shepard of New York, made formal objection to the jurisdiction of the court, practically intimating bias. They also asked for an adjournment for four or five weeks, but the court would hear of no more delay and reserved decision on the jurisdiction ques-

Mr. Perkins announced to the court that the Rev. Elwood Worcester, Ph. D., and the Rev. Samuel McComb, both of Boston, will be associated with the defence as ecclesiastical counsel. Other clergymen who arrived here to-day, interested in Dr. Crapsey, are the Rev. Roland Cotton Smith, rector of St John's, Washington, Mr. Roosevelt's church; the Rev. Alexis Stine, chaplain-elect of Columbia University; the Rev. John W. Suter of Winchester, a suburb of Boston; the Rev. Frank S. Nelson, rector of Christ Church, Cincinnati; the Rev. Wilford L. Hoopes of Rhode Island, and the Rev Dr. J. Howard Mellish of Trinity, Brooklyn

Associated with Attorney John Lord O'Brien for the prosecution are Attorney Franklin D. Locke of Buffalo, the Hon. John H. Stiness of Providence and the Rev. Frank J. Hall, professor of dogmatic theology in the Western Theological Seminary at Chicago.

Shortly after noon Mr. O'Brien opened his case by offering in evidence Dr. Crapsey's book, "Religion and Politics."

Mr. Perkins objected to the whole book going in, contending that only such parts of it as are quoted in the presentment (fifteen in number) could be admitted. Mr. O'Brien smiled pleasantly and said

he never dreamed that the defence had thought the doctor's book so dangerous. Mr. Shepard referred to the fifteen quo-

tations as fifteen explosions, while Mr. Perkins admitted that he hadn't read the book through. On Judge North's advice the court re-

erved its decision, and Mr. O'Brien then offered in evidence, without opposition, a lot of other documentary evidence, conmisting of books and records of the Protestant Episcopal Church, going as far back as the proceedings of the Church in 1789, which adopted the Book of Common Prayer and the Thirty-nine Articles of

He had some doubt that more than those parts of it that are covered by the presentment would be competent. However, he would withhold his final advice to the court for the present. Mr. O'Brien argued that the whole of the sermons from which the parts quoted in the presentment are taken should be admissible.

A pale faced slender young man in clerical garb responded to Mr. O'Brien's call for his first witness. Frederick James Alexander is the name he gave, after being sworn according to the form laid down in

the canons.

Mr. Alexander testified that he was an ordained minister of the Protestant Episcopal Church. He was assistant rector to Dr. Crapsey in St. Andrew's Church, Rechester, from the summer of 1904 till January, 1906. He said he heard Dr. Crap-January, 1906. He said he heard Dr. Crap-sey preach a sermon there on December 31 last. This is the one sermon specified in the presentment which is not in Dr. Crapsey's book and which he denies.

Asked by Mr. O'Brien what Dr. Crapsey said in that sermon the witness testified:

"I can't remember all of it, but I remember four points that he made. There were these: 'Jesus was born of parents belonging to the middle class'; 'He was born of a simple father and mother'; 'He was the son of a carpenter.' Toward the end of the sermon he criticised the attitude the Church had taken in regard to the birth of Christ. He said if the Church paid less attention to the second birth (the baptism) and more to the first birth the Church would be much better off. Then, as what I should regard as his climax, he made the fourth point, that the fact that the early church Christians predicated a miraculous birth to Jesus should be regarded as one th to Jesus should be regarded as one misfortunes that had ever of the greatest mi

Mr. Perkins on cross-examination set but to show that Mr. Alexander was biassed against Dr. Crapsey. First of all he brought out the fact that Mr. Alexander jotted down these quotations from the sermon as soon as he got to his home after the service at which it was delivered. Asked as to why he made this memorandum, Mr. Alexander said:

Mr. Alexander said:

"I don't care to go into that," said the witness after some hesitation, and when sharply pressed by the cross-examiner be declined to answer.

Mr. Perkins asked the witness if he had not resigned from the church by request of the vestry. The young clergyman did to like it put just that way, and would not

Mr. Perkins also drew out that Mr. Alex-Mr. Perkins also drew out that it. Alexander had asked for an increase of salary. He was unwilling to say that the request was refused, but when Mr. Perkins bluntly said: "Well, you did not get the increase, did you?" he admitted that he did not.

Mr. Perkins gave the witness further discomfort by asking him if he had not told one of the vestrymen of St. Andrew's last summer or fall that Dr. Crapsey might be removed, and if he was he (Mr. Alexander) would like to take his place.

After some dodging the witness said:

The Tribune, which alone gives the report adds that, although its Aldershot correspondent says the troops will go to South Africa, it is equally if not more akely that the preparations are being made owing to the bellicose action of the Sultan of Turkey regarding the British claims than Tabah is Egyptian territory, which Turkey refuses to

concede.

The Sultan is determined to push his claims in reference to the Egyptian frontier, supporting them with military force. The division, which, according to the Tribune, is to be mobilized, consists of two brigades, including four battalions of foot guards, four battalions of infantry of the line, two artillery brigades, a field company of engineers and three regiments of cavalry.

COULD HAVE BOUGHT ALBANY,

SAYS HEARST (BUT HE WOULDN'T), TO PASS RECOUNT BILL.

And "If the Bench Is as Bad as Jerome Says It Is" Could Have Got Any Decision by Exerting Influence but He Didn't Going to Albany Again as a Procession

Carnegie Hall-its main floor and five big galleries-was crowded last night at a meeting called by the Hearst forces to protest against the killing of the election recount bill. Mr. Hearst made a speech in which he attacked Mayor McClellan hotly, cast reflections upon the courts and practically charged that he would have been able to put his recount bill through the Legislature if he had been willing to offer sufficient inducement.

A resolution was passed to the effect that "this meeting, representing a great body of voters disfranchised by fraud, protests and demands that relief be found against fraud at the ballot." The resolution provided further that a committee be appointed to go to Albany to urge upon the Legislature the necessity of passing a law in accordance with "the will and the rights of the citizens."

The chairman, Henry Powell of Brooklyn appointed as the committee which should visit Albany the entire audience in the big auditorium. He announced that a special train will leave the Grand Central Station this morning at 8 45 o'clock. Hearst agents passed through the audience offering round trip tickets at \$2.50. Many were sold, and it was estimated last night

that 200 men would make the trip to-day. Mr. Hearst said he had come to the meeting to make a report on his efforts to secure and carry out the will of the people as expressed at the last election. He had exerted every honest effort and expended more than \$100,000. They had proceeded openly and honorably in the fight, and in that lay the reasons for the failure

"You all know," said Mr. Hearst, "that with that Grady gang at Albany any measure, honest or dishonest, could have been forced through if sufficient inducement had been offered, and you all know that if the bench is as bad as the District Attorney says it is any decision could have been secured if sufficient influence had been exerted, and, as for the wretched little city administration, slinking through its stolen term, with its cur tail between its stolen term, with its cur tail between its legs, I believe they would relinquish their very offices if sufficient inducements were offered."

Mr. Hearst said that into the scales of leave of the scales of the

Mr. Hearst said that Jeflerson Day was recently celebrated by men who could not be in politics under Jeflerson's definition, because he said the whole art of government consists in the art of being honest.

Mr. Hearst said the Mayor couldn't have quoted Jefferson without offending his audience of "ballot box burglars and financial Fagins," without wounding the susceptibilities of those "Capt. Other speakers were Clarence J. Shearn, the Rev. Dr. Charles R. East of Brooklyn, Charles Sprague Smith and Senator John Ford. A letter was read from William M. Ivins, the Rev. Dr. R. S. MacArthur and Gen. E. A. McAlpin of Ossining.

FIGHTING PALISADES PARK BILL, Senators Malby, Raines and Alids Said to Have Combined to Beat It.

The friends of the bill extending the projected Palisades Park to the Stony Point Reservation so as to include Hook Mountain and save it from the quarrymen, are fearful that it will be defeated when it comes up for a vote in the Senate to-day. Senators Malby, Raines and Allds, they say, have formed a combination against the bill, and the measure is in danger, in spite of the fact that Gov. Higgins has announced that he was in favor of it and there is almost universal public sentiment for it.

It was announced yesterday by the friends of the measure that should it go through enough money has been promised by private individuals to construct the proposed extension to the drive, and no sed extension to the drive, and no

Though her parents and the police used every persuasion, Sadie Mahoney, 18 years old, a stenographer employed by Butler Bros. of 495 Broadway, absolutely refused in the Tombs police court yesterday to press a charge against Kirk Parker Harger, 19 years old, of 3) Eldert street, Brooklyn, who was accused of robbing her of a gold ring and \$14.50.

Harger, who came from Pittsburg about four months ago, struck up an acquaintance with the girl on Broadway three weeks ago. The two quickly became great chums.

On Monday afternoon Harger met the girl by appointment and they strolled down Broadway. On the way Harger offered to take care of her money and ring, telling her there were many pickpockets about.
